Lighttpd: redirect in HTTPS

redirect all traffic in HTTPS equivalent URL

lighttpd.conf

```
$SERVER["socket"] == ":80" {
  $HTTP["host"] =~ "(.*)" {
    url.redirect = ( "^/(.*)" => "https://%1/$1" )
  }
}
```

redirect only a particular pattern URL

lighttpd.conf

```
$HTTP["scheme"] == "http" {
        url.redirect = ("^/(phpmyadmin/.*)" => "https://%1/$1")
}
```

redirect only a particular pattern URL

lighttpd.conf

```
$SERVER["socket"] == ":80" {
        $HTTP["url"] =~ "(.*)/secure" { url.redirect = ( "^/(.*)" => "https://www.example.com/secure/" ) }
        server.document-root = "/var/www"
}
```
